Professional Summary

Currently a third-year Information Technology student at Nong Lam University, Ho Chi Minh City, with a strong interest in Machine Learning and Natural Language Processing (NLP). Developed a solid foundation through personal projects, academic research, and hands-on practice. I am also familiar with backend and DevOps tools. Eager to apply skills and gain real-world experience in a dynamic, innovation-driven environment.

Projects

► Vietnamese News Classification

Time: June 2025 (Completed in Semester 2 – Year 3)

Description:

- Conducted research and authored a scientific paper on Vietnamese news article classification.
- Designed and implemented a complete ML pipeline: EDA, preprocessing, feature extraction, model training, and evaluation.
- Compared performance of traditional ML models, deep learning models, and PhoBERT.
- Published the results as a preprint on ResearchGate.

Technologies: Python, scikit-learn, TensorFlow, Keras, PhoBERT, Pandas, Underthesea.

Research Gate: <https://dx.doi.org/10.13140/RG.2.2.21571.11044>

► Image Captioning Model

Time: May 2025 (Completed in Semester 2 – Year 3)

Description:

- Built an image captioning model based on the Show and Tell architecture using CNN + RNN.
- Trained the model on the Flickr8k dataset to generate short, descriptive captions for input images.
- Developed an inference API using Flask.
- Deployed a live demo on Hugging Face Spaces using Docker.

Technologies: Python, Tensorflow, Keras, Flask, Hugging Face.

Hugging Face: <https://huggingface.co/spaces/bqtankiet/image-captioning-demo>

► Website Crocodile (E-commerce for Crocodile Leather Fashion)

Time: April 2025 (Completed in Semester 2 – Year 3)

Description:

- Developed a full-stack e-commerce website with complete user and admin functionalities.
- Deployed the application on a VPS using Docker and Nginx for production environment.
- Integrated Google login via Firebase Authentication.
- Implemented shipping fee calculation using GHN API and online payment via MoMo API.

Technologies: Java, JSP/Servlet, Bootstrap, Firebase, GHN API, MoMo API, Nginx, Docker, VPS

Live Website: <https://crocodile.nludemo.id.vn/>

Technical Skills

- **AI/ML:** Python, scikit-learn, Keras, TensorFlow, Pandas, LangChain
- **Backend:** Java, Spring Boot
- **DevOps:** Docker, Linux, Jenkins
- **Database:** MySQL, MariaDB
- **Tools & IDEs:** Git, GitHub, VS Code, Google Colab, IntelliJ IDEA, Postman

Education

- **Bachelor of Engineering in Information Technology**
Nong Lam University – Ho Chi Minh City, Vietnam
2022 – Present (Expected Graduation: 2026)

Learning & Self-Study

- **Head First Java** – OOP fundamentals, Java syntax and design patterns
- **Hands-On Machine Learning** – ML workflows, Scikit-learn, TensorFlow, Keras
- **Spring Boot in Action** – Backend development, RESTful APIs, application deployment

Languages

- **Vietnamese:** Native
- **English:** Basic proficiency – able to read technical documents; currently improving writing and communication skills
